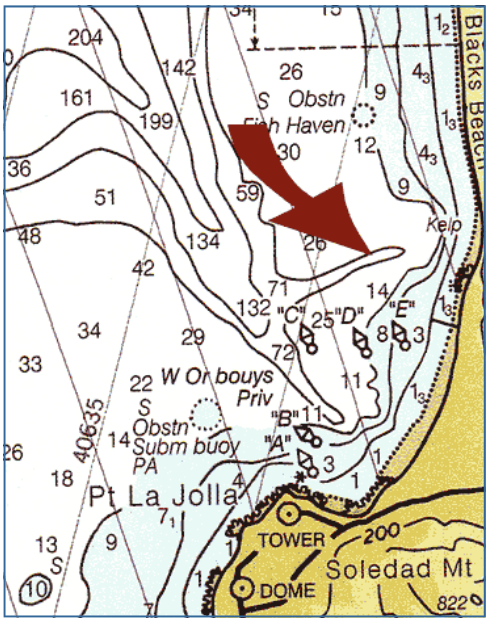
ACTIVITY: Kayaking
CASE: **GSAF 1995.06.24**
DATE: Saturday, June 24,1995
LOCATION: The incident took place in the Pacific Ocean off La Jolla Shores, at La Jolla, San Diego County, California, USA.
32°52.5' N; 117°16.0' W



NAME: Unknown
DESCRIPTION: She is a female from the Sacramento area.

BACKGROUND
MOON PHASE: Waning Crescent, 11% of the Moon's visible disk was illuminated. New Moon on June 28, 1995.

NARRATIVE: No details

INJURY: The woman's face was injured.

TREATMENT: It was reported in several Southern California newspapers that a San Diego physician had removed a triangular-shaped, serrated tooth fragment from the patient's face. The physician was contacted and confirmed that he had removed a tooth fragment from a patient and that it was serrated and triangular in shape. Unfortunately, he could not reveal any information regarding the injured person. Repeated attempts to identify and/or locate this individual through kayaking organizations throughout California have been unsuccessful.

NOTE: This was the location of Verne Fleet's hammerhead shark attack and Robert Pamperin's fatal white shark attack, both in 1959, many years earlier. If authentic, this would be the third incident at this *"recurring location"* and the fifth attack on a female and a kayak.
